In Re: Eastern Sierra Broadcasting (ESB)
NEW(AM), Reno, NV
Facility Identification Number: 160544
File Number: BNP-20080602BQY

Dear Mr. Alpert:

This letter refers to the above-captioned application and our June 1, 2009, letter requesting a curative amendment within 30 days.

A preliminary review of the application has revealed that an amendment has not been filed (to correct the nighttime tower #1 electrical height from 76.6° to 75.6° on FCC Form 301) to resolve the nighttime KORL problem mentioned, and the proposal remains in conflict with BNP-20000201AFK, as mentioned in our June 1, 2009, letter.

Accordingly, further action on the subject application will be withheld for a period of 30 days from the date of this letter. Failure to amend or respond with a request for additional time will result in the dismissal of the application pursuant to Section 73.3568 of the Commission's rules.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Son Nguyen', with a stylized flourish at the end.

Son Nguyen
Supervisory Engineer
