

## STATIONS PROPOSED TO BE REBROADCAST:

The following primary stations will be rebroadcast on the following translators once the contemplated assignment is consummated.

<u>TRANSLATOR BEING ASSIGNED</u>	<u>PRIMARY STATION REBROADCAST</u>
K287BX Mesa, AZ, facility ID 21071	*KFNN(AM) Mesa, AZ, facility ID 14382, 1510 KHz Delivery Method: Other (digital audio stream)
K226BE Fort Morgan, CO, facility ID 151241	**KLZV(FM), facility ID 89509, 91.3 MHz Delivery Method: Off air Proposed Primary station as documented to be rebroadcast in outstanding Construction Permit BMPFT-20170427ABX, will be KFCS(AM) Colorado Springs, CO, facility ID 51816, 1580 KHz once the CP has been constructed. Fill-in compliance documented in CP application.
K210EC Douglas, WY, facility ID 155203	**KRKY-FM Douglas, WY, facility ID 176144, 88.7 MHz Delivery Method: Off air Proposed Primary station as documented to be rebroadcast in, outstanding Construction Permit, BMPFT-20160728AFW, will be KGNU(AM) Denver, CO, facility ID 31349, 1390 KHz once the CP has been constructed. Fill-in compliance documented in CP application.
K270CM Pueblo, CO, facility ID 71811	*KKPC(AM) Pueblo, CO, facility ID 53851, 1230 KHz Delivery Method: Other (co-located at KKPC site)
K248CZ Cheyenne, WY, facility ID 148078	*KFBC(AM) Cheyenne, WY, facility ID 43629, 1240 KHz Delivery Method: Other (digital audio stream)
K266CC Cheyenne, WY, facility ID 71836	*KRAE(AM) Cheyenne, WY, facility ID 35510, 1480 KHz Delivery Method: Other (digital audio stream)
K292GW Boulder, CO, facility ID 154262	*KCFC(AM) Boulder, CO, facility ID 70405, 1490 KHz Delivery Method: Other (digital audio stream)

\*Stations currently being rebroadcast by these licensed “fill-in” translators, thus they will remain in “fill-in” compliance as no changes are being made and the primary stations will be received by an “off-air” signal.

\*\*Non-Commercial FM stations proposed to be rebroadcast on these licensed “non-fill-in” translators.

Note: K226BE and K210EC both have outstanding Construction Permits to relocate and become “fill-in” translators for AM stations as noted above. These are the same stations originally proposed with the Construction Permits, and thus in compliance with “Fill-in” translator rules.
