Re: The Raftt Corporation
KQQB(AM), Stockdale, TX
Facility Identification Number: 67285
File Number: BP-20140613AAM

Dear Mr. Friemel:

This letter is in reference to: the above-captioned minor change application to change the KQQB(AM) daytime pattern and add a new critical hours pattern; our January 20, 2015, deficiency letter requesting a curative amendment to eliminate prohibited overlap with KEDA(AM); the March 11, 2015, amendment to reduce the proposed daytime power level from 25 kW to 20 kW; and the March 16, 2015, Informal Objection filed by New Beginnings Houston (NBH).

A preliminary review of the amended application reveals that the reduction in the daytime power from 25 kW to 20 kW eliminates the prohibited daytime overlap with the KEDA(AM) 5 mV/m, but the proposed 23 kW critical hours pattern 5 mV/m contour overlaps the KEDA(AM) 5 mV/m protected daytime groundwave contour, in violation of Section 73.37(a) of the Commission's rules.

Accordingly, pursuant to Section 0.283 of the Commission's Rules, the application (File Number: BP-20140613AAM) is hereby DISMISSED as unacceptable for filing, and NBH's March 16, 2015 Informal Objection is hereby dismissed as MOOT.

Sincerely,

Son Nguyen
Supervisory Engineer
