

**Exhibit 4
FCC Form 316
Section II, Paragraph 6**

By the instant application and a companion Form 316 application, Transferor Bonten Media Group LLC seeks consent to a *pro forma* internal corporate reorganization to be consummated contemporaneously with the upcoming closing of the transfer of control of BlueStone License Holdings Inc. (licensee of seven full-power TV stations and associated low power and TV translator stations) and of Newport License Holdings Inc. (licensee of one full-power TV station) to Bonten Media Group LLC. (On April 24, 2007, the FCC granted its consent for Bonten Media Group LLC to acquire control of BlueStone License Holdings Inc. and Newport License Holdings Inc.) As explained in Exhibit 10, parent company Bonten Media Group LLC proposes to insert a new subsidiary in the corporate ownership chain of BlueStone License Holdings Inc. and Newport License Holdings Inc. (Because there are two licensee entities, the instant application covers BlueStone License Holdings Inc. and a separate companion Form 316 application covers Newport License Holdings Inc.)

Thus, the Form 316 applications reflect the post-consummation ownership of BlueStone License Holdings Inc. and Newport License Holdings Inc., when both entities will be indirect subsidiaries of Bonten Media Group LLC. As an internal reorganization, there is not any consideration or agreement for the proposed *pro forma* transaction.
