Wednesday September 15, 2010

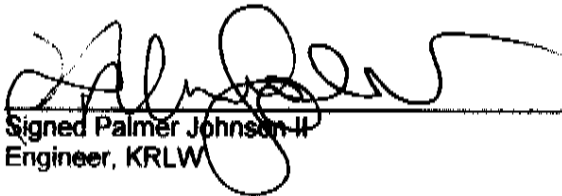

I Palmer Johnson II, Chief Engineer for Combined Media Group do here by certify by this affidavit that the facilities of FM radio station KRLW - have been constructed in accordance with and comply fully to the requirements set forth in construction permit No. : BPH-20090401AQV.

I have personally supervised and overseen the assembly and installation of the ERI Directional antenna that will be utilized by KRLW to meet the directional requirements of the station.

Engineering Qualifications of installing Engineer:

I have worked as a broadcast engineer since 1983 in the capacity of a contract engineer ranging from small to major markets. During this time I have supervised the installation of 3 previous FM directional antennas to the satisfaction of the FCC (WKVF and WKVZ for Educational Media Foundation and KGLU for Pollack Steel Supply). My experience includes installation, maintenance and troubleshooting of equipment that includes high power AM and FM transmitters, directional AM arrays of up to 8 towers and construction and modification of various related RF and AF equipment.

I declare the above statement to be true and accurate to the best of my ability;

Signed Palmer Johnson II
Engineer, KRLW
