

## EXHIBIT 1

This application involves an involuntary assignment of the license from Board of Regents, State of Florida, Acting for and on behalf of the University of Florida, to Board of Trustees, University of Florida, with respect to the stations listed in Assignor's portion of this application.

This assignment is required in light of the Florida Education Governance Reorganization Implementation Act, recently enacted by the Florida legislature, which is effective as of July 1, 2001. Attached is the title page from this enactment (SB 1162). This legislation is extremely lengthy, involving more than 100 pages. If the FCC desires to see this entire enactment, application will furnish it.

Under the new governance structure, the procedures will remain the same for matters requiring review by the governing board. As before, deans and directors will take proposals to their vice presidents. The vice presidents will evaluate proposals and submit any recommendations to the president. The president will evaluate the recommendations and submit proposals to the governing board. Instead of submitting proposals to the chancellor and Florida Board of Regents, the president will submit proposals to the Board of Trustees, University of Florida.
