EXHIBIT B

Clear Allocation Site

Since the site for the actual implementation of the upgrade on Channel 244C3 is based on the use of §73.215 of the rules, an allocation site for Channel 244C3 has been selected. As indicated on Exhibit B1, from the proposed allocation site, Channel 244C3 meets the Commission's minimum distance separation requirements to all licensed, applied for or proposed facilities. Based on the proposed allocation site, a 3.16 mV/m contour is placed over Humboldt, Nebraska, as indicated on Exhibit B2.

Further, the reference site is not located offshore, on airport property or in a National Forest and, as such, the site is suitable for tower construction. Based on the foregoing, Channel 244C3 at Humboldt, Nebraska meets the Commission's allocation criteria.
