3. Is the station now operating pursuant to automatic program test authority in accordance with 47 C.F.R. Section 73.1620?

☒ Yes ☐ No

Exhibit No.

If No, explain in an Exhibit.

4. Have all the terms, conditions, and obligations set forth in the above described construction permit been fully met?

☒ Yes ☐ No

Exhibit No.

If No, state exceptions in an Exhibit.

5. Apart from the changes already reported, has any cause or circumstance arisen since the grant of the underlying construction permit which would result in any statement or representation contained in the construction permit application to be now incorrect?

No.

Exhibit No.

If Yes, explain in an Exhibit.

6. Has the permittee filed its Ownership Report (FCC Form 323) or ownership certification in accordance with 47 C.F.R. Section 73.3615(b)?

☐ Yes ☐ No

☒ Does not apply

Exhibit No.

If No, explain in an Exhibit.

7. Has an adverse finding been made or an adverse final action been taken by any court or administrative body with respect to the applicant or parties to the application in a civil or criminal proceeding, brought under the provisions of any law relating to the following: any felony; mass media related antitrust or unfair competition; fraudulent statements to another governmental unit; or discrimination?

☐ Yes ☒ No

Exhibit No.

If the answer is Yes, attach as an Exhibit a full disclosure of the persons and matters involved, including an identification of the court or administrative body and the proceeding (by dates and file numbers), and the disposition of the litigation. Where the requisite information has been earlier disclosed in connection with another application or as required by 47 U.S.C. Section 1.65(c), the applicant need only provide: (i) an identification of that previous submission by reference to the file number in the case of an application, the call letters of the station regarding which the application or Section 1.65 information was filed, and the date of filing; and (ii) the disposition of the previously reported matter.

8. Does the applicant, or any party to the application, have a petition on file to migrate to the expanded band (1605-1705 kHz) or a permit or license either in the existing band or expanded band that is held in combination (pursuant to the 5 year holding period allowed) with the AM facility proposed to be modified herein?

☐ Yes ☒ No

If Yes, provide particulars as an Exhibit.

Exhibit No.

The APPLICANT hereby waives any claim to the use of any particular frequency or of the electromagnetic spectrum as against the regulatory power of the United States because use of the same, whether by license or otherwise, and requests and authorization in accordance with this application. (See Section 304 of the Communications Act of 1934, as amended).

The APPLICANT acknowledges that all the statements made in this application and attached exhibits are considered material representations and that all the exhibits are a material part hereof and are incorporated herein as set out in full in the application.

#### CERTIFICATION

1. By checking Yes, the applicant certifies, that, in the case of an individual applicant, he or she is not subject to a denial of federal benefits that includes FCC benefits pursuant to Section 5301 of the Anti-Drug Abuse Act of 1988, 21 U.S.C. Section 862; or, in the case of a non-individual applicant (e.g., corporation, partnership or other unincorporated association), no party to the application is subject to a denial of federal benefits that includes FCC benefits pursuant to that section. For the definition of a "party" for these purposes, see 47 C.F.R. Section 1.2002(b).

☒ Yes ☐ No

2. I certify that the statements in this application are true, complete, and correct to the best of my knowledge and belief, and are made in good faith.

Name <i>Nelson CINTRON, JR.</i>	Signature <i>[Signature]</i>	
Title <i>Member.</i>	Date <i>8/21/2021</i>	Telephone Number <i>216-785-8311</i>

**WILLFUL FALSE STATEMENTS ON THIS FORM ARE PUNISHABLE BY FINE AND/OR IMPRISONMENT (U.S. CODE, TITLE 18, SECTION 1001), AND/OR REVOCATION OF ANY STATION LICENSE OR CONSTRUCTION (U.S. CODE, TITLE 47, SECTION 312(a)(1)), AND/OR FORFEITURE (U.S. CODE, TITLE 47, SECTION 503)**

#### FCC NOTICE TO INDIVIDUALS REQUIRED BY THE PRIVACY ACT AND THE PAPERWORK REDUCTION ACT

The solicitation of personal information requested in this application is authorized by the Communications Act of 1934, as amended. The Commission will use the information provided in this form to determine whether grant of the application is in the public interest. In reaching that determination, or for law enforcement purposes, it may become necessary to refer personal information contained in this form to another government agency. In addition, all information provided in this form will be available for public inspection. If information requested on the form is not provided, the application may be returned without action having been taken upon it or its processing may be delayed while a request is made to provide the missing information. Your response is required to obtain the requested authorization.

Public reporting burden for this collection of information is estimated to average 639 hours and 53 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing the burden, can be sent to the Federal Communications Commission, Records Management Branch, Paperwork Reduction Project (3060-0627), Washington, D. C. 20554. Do NOT send completed forms to this address.

THE FOREGOING NOTICE IS REQUIRED BY THE PRIVACY ACT OF 1974, P.L. 93-579, DECEMBER 31, 1974, 5 U.S.C. 552a(e)(3), AND THE PAPERWORK REDUCTION ACT OF 1980, P.L. 96-511, DECEMBER 11, 1980, 44 U.S.C. 3507.

Engineering Report

Application to Cover BP-20190702AAZ

WHTX, Warren, OH

Exhibit 1 Page 1

## **Abstract**

This application is for license to cover construction permit BP-20190702AAZ for minor changes to WHTX, Warren OH. The Construction permit is to utilize one tower of its former directional antenna at new power day and night.

This application also seeks permission to operate WHTX with PSRA and PSSA from 6 AM until local sunrise and from local sunset until the permitted power is equal to the WHTX night authorized power.

## **Construction completed**

WHTX is now operating in conformance with its construction permit, using automatic program test authority. The results of the measurement of antenna impedance is attached as Figure 1 of this report. With the filing of this application, all conditions of BP-20190702AAZ will have been met.

The WHTX antenna impedance was measured, and the results of the measurements are included as an appendix to this report, and are placed in the station record.

## **PSSA and PSRA Authorization**

### **Waiver Request**

WHTX operates on a Mexican priority Class A channel. Domestic Class D stations are authorized PSSA and PSRA operation according to FCC Rules §73.99(b)(1) and (d)(1). The Construction permit of WHTX night field intensity is 130.3 mV/m. This field intensity value is less than minimum field for a class B station that was required when section §73.99 was enacted, which was 141 mV/m @ 1 km. The FCC changed the value to 107.5 mV/m @ 1 km in MB Docket 13-249 to permit the use of smaller and less efficient antennas.

Sagittarius Communications, LLC believes that the Commission did not intend to deny stations producing less than 141 mV/m @ 1 km the benefit from PSSA and PSRA operations. Sagittarius Communications, LLC hereby requests a waiver of §73.99(b)(1) and (d)(1) to

# RADIGTECHNIQUES®

Engineering Report

Application to Cover BP-20190702AAZ

WHTX, Warren, OH

Exhibit 1 Page 2

permit PSSA and PSRA for WHTX as a newly classified class B station. This waiver is in the public interest and necessity, as the changes in Docket 13-249 were clearly not intended to deny stations with low power the benefit of improved coverage during the critical morning and evening "drive time" hours. The PSSA and PSRA authorizations are particularly important to stations located north of 40 degrees latitude because of the very short daytime winter operating hours for stations in the north. Saggitarius Communications, LLC has invested heavily in a new transmitter and extensive renovation to the transmitting facilities of WHTX and any limitation of its ability to provide service during these important hours will hamper the business's probability of success.

The FCC does not currently have the tools to calculate PSSA and PSRA power levels because the computer program that the commission formerly used to establish PSSA and PSRA power levels was defective and had to be decommissioned. As such, Saggitarius Communications, LLC is providing an engineering showing under the terms of §73.99.

## Extended Hours Request

Intended PSRA and PSSA Operation for WHTX, 1570 kHz, Warren, Ohio.

Licensee is Saggitarius Communications, LLC

The requested power reduction is an internal function of the transmitter, and within the authorized power rating of the transmitter.

Figure 2 of this report is a map showing that at 500 Watts ( the maximum PSSA/PSRA power ) the proposed 0.025 mV/m 10% skywave contour does not extend to Mexico, so no interference to XERF, Ciudad Acuna, the Mexican Primary Class A station would occur at full power extended hours operation.

This map also shows that the 0.025 mV/m Region 2 10% skywave of a 500 W PSSA/PSRA operation would not extend to any other Region 2 country.

PSRA operations consider only Class A, Mexican and Canadian and other foreign stations in establishing operating power.

## Engineering Report

Application to Cover BP-20190702AAZ

WHTX, Warren, OH

Exhibit 1 Page 4

The following table shows PSRA eligibility for WHTX with all times shown in EST with the appropriate diurnal factors and powers listed. This should provide the basis of WHTX PSSA authorization.

Month	WHTX Sunrise	6:00	6:15	6:30	6:45	7:00	7:15	7:30	7:45
January	7:45	1	1	1	1	0.9984	0.8111	0.5952	SR
Power		235 W	235 W	235 W	235 W	235 W	357 W	500 W	
February	7:15	1	1	0.9984	0.8111	0.5952	SR	Day	Day
Power		235 W	235 W	235 W	357 W	500 W			
March (Std Time)	6:30	0.8111	0.5952	SR	Day	Day	Day	Day	Day
Power		357 W	500 W						
November (EDT)	7:15	Night	Night	Night	Night	0.5952	SR	Day	Day
Power						500 W			
November (Std Time)	7:15	1	1	0.9984	0.8111	0.5952	SR	Day	Day
Power		235 W	235 W	235 W	357 W	500 W			
December	7:45	1	1	1	1	0.9984	0.8111	0.5952	SR
Power		235 W	235 W	235 W	235 W	235 W	357 W	500 W	

Local Sunrise at the path midpoint and WHTX transmitter site were calculated on the FCC "Local Sunrise Sunset Calculations" page, and examined. The sunrise times at the midpoint were identical with that of the WHTX site for all months. No interpolation of diurnal factors were required.

In summary: PSRA operation is requested at 6 AM Local time with the following:

All times Eastern Standard Time, AM

January 6 to 7:15 – 235 W, 7:15 to 7:30 – 357 W, 7:30 to 7:45 – 500 W

February 6 to 6:45 – 235 W, 6:45 to 7:00 – 357 W, 7:00 to 7:15 – 500 W

March (EST) 6 to 6:15 – 357 W, 6:15 to 6:30 – 500 W

Sunrise at WHTX precedes 6AM EDT during Daylight savings time except November

November (EDT) 7:00 to 7:15 – 500 W

November (EST) 6 to 6:45 – 235 W, 6:45 to 7:00 – 357 W, 7:00 to 7:15 – 500 W

December 6 to 7:15 – 235 W, 7:15 to 7:30 – 357 W, 7:30 to 7:45 – 500 W

WHTX, Warren, OH

Exhibit 1 Page 5

## PSSA Operation

Operations up to 6 PM Local Time are required to fully protect foreign stations, and after that additionally protect all domestic stations. Calculations proceed similarly to the PSRA calculations, but using the WHTX transmitter site for dinural calculations.

Sunset at WHTX occurs before 6PM during the months of September through March accounting for DST. For the hours before 6 PM local time protection to CFOR is the limiting requirement.

After 6 PM local time, domestic class B stations are required to receive full night protection using the dinural factor. First, an allocation study was done for full night protection of domestic stations at 500 Watts ( the maximum PSSA power).

AM Allocation Study WHTX PSSA Domestic Stations Requiring Night Protection Below 500W  
The last column indicates the power level where no objectional interference would occur to that station using standard night protection calculations (SS +2 hrs)

Coordinates : 41-12-22.0 N 80-50-29.0 W Frequency : 1570 PWR: 0.500

Maximum Inverse Field: 223.40 mV/M @ 1 km

### SITE INFO

BEARING	CALL	LIM	CLASS	SLANT	GND	MIN	MAX	MAX	SWAVE	FLD	LIMITATION	RSS	LIM	25%	FULL	PROT
				DIST	RAD	ELEV	ELEV	RAD	SWAVE	FLD	ALLOWABLE	---			POWER	W
92.6	WPGM	141.792	B	406.5	223.4	21.3	33.2	198.8	0.167269	6.652		21.118			254	
99.7	WISP	191.122	B	527.5	223.4	15.3	25.0	210.4	0.111859	4.706		20.589			410	
117.3	WNST	160.386	B	459.8	223.4	18.2	29.1	205.2	0.140577	5.769		21.492			306	
169.9	WYTI	183.118	B	517.4	223.4	15.7	25.5	209.7	0.120143	5.039		20.580			381	
248.8	WPTW	112.444	B	370.9	223.4	24.0	36.7	192.7	0.194587	7.499		22.741			170	
297.5	WFUR	183.185	B	488.1	223.4	16.9	27.2	207.6	0.123135	5.113		21.060			389	

As can be seen, WPTW is the limiting station: The permitted field is divided by the dinural factor to determine the operating power. For the second hour of PSSA operation the dinural factor is 1 at 1570 kHz, so PSSA operation will only be used for the first hour.

Engineering Report

Application to Cover BP-20190702AAZ

WHTX, Warren, OH

Exhibit 1 Page 7

In summary, PSSA operation is requested as shown below:

All Times Eastern Standard Time

January	17:15 to 17:45 – 500 W, 17:45 to 18:00 – 295 W, 18:00 to 18:15 – 214 W
February	17:45 to 18:00 – 500 W, 18:00 to 18:15 – 379 W, 18:15 to 18:30 – 214 W
March (EST)	18:30 to 19:00 – 500 W, 19:00 to 19:30 – 214 W
March (EDT)	18:30 to 19:00 – 379 W, 19:00 to 19:30 – 214 W
April	19:00 to 19:30 – 500 W, 19:30 to 20:00 – 214 W
May	19:30 to 20:00 – 379 W, 20:00 to 20:30 – 214 W
June	20:00 to 20:30 – 379 W, 20:30 to 21:00 – 214 W
July	20:00 to 20:30 – 379 W, 20:30 to 21:00 – 214 W
August	19:15 to 19:45 – 379 W, 19:45 to 20:15 – 214 W
September	18:30 to 19:00 – 379 W, 19:00 to 19:30 – 214 W
October	17:45 to 18:00 – 500 W, 18:00 to 18:15 – 379 W, 18:15 to 18:30 – 214 W
November	17:00 to 17:30 – 500 W, 17:30 to 18:00 – 295 W
December	17:00 to 17:30 – 500 W, 17:30 to 18:00 – 295 W

Engineering Report  
Application to Cover BP-20190702AAZ  
WHTX, Warren, OH  
Exhibit 1 Page 9

## Conclusion

WHTX construction has been completed and the station is operating under automatic program test authority, and is ready to be licensed with the parameters of BP-20190702AAZ.

This application requests PSRA and PSSA authorization and a waiver of its class B status which is the result of the FCC reducing the minimum field intensity required for class B stations, while the night authorized power of WHTX remains well below the 144 mV/m @ 1 km minimum for Class B stations in place when §73.99 was written.

## Engineer's Statement

This is to certify that this report has been prepared by myself. It is correct and accurate of my own knowledge, except where stated otherwise, and where that is so, the information is correct to the best of my knowledge and belief.

I further certify that I am a Licensed Professional Engineer in the State of New Jersey, and the Commonwealth of Pennsylvania with a BSEE degree from the Newark College of Engineering of NJIT, and that I am, and have been for over forty years, regularly engaged in the practice of radio engineering with the firm of Radiotechniques Engineering, LLC, with offices at 402 Tenth Avenue, Haddon Heights, NJ. I am a member of the AFCCE, Senior member of the IEEE and SBE and hold a FCC General Radiotelephone Operator License. My qualifications are a matter of record with the FCC.
