

Exhibit 20 – Statement B
REDUCTION IN EFFECTIVE RADIATED POWER
prepared for
Citadel Broadcasting Company
WKDF(FM)(Aux) Nashville, Tennessee
Facility ID 16896
Ch. 277C0 57 kW 86 m

Citadel Broadcasting Company (“*Citadel*”), licensee of FM radio station WKDF(FM) (Ch. 277C0, Nashville, TN), has completed the construction of an auxiliary antenna for the station, as authorized by Construction Permit BXPB-20061130ARO.

Following the completion of this Application for Construction Permit, it was determined that the combination of the previously installed antenna and transmission line, along with the available transmitter, was incapable of reaching the authorized ERP. Thus, pursuant to §73.1690(8), *Citadel* now requests a reduction in the Effective Radiated Power (“ERP”) of this auxiliary antenna to 57 kW.
