This document will certify that the directional antenna for WUBU (FM) was installed pursuant to the instructions supplied by the manufacturer. The installation work was performed by a qualified insured tower company under my direct supervision.

The newly installed antenna was installed using good engineering practices and grounded properly.

I have been a radio broadcast engineer for 22 years supervising many radio transmitter installations. I am holder of General Radio Telephone license number PG-GB-037344, and I am the holder of a Senior Broadcast Radio Engineer certification from the Society of Broadcast Engineers.
