

**Introduction and Description of Proposal**

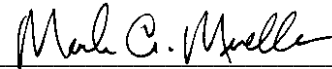

This engineering exhibit was prepared in support of a minor change application being filed by the J. Kinlow Estate for authority to move W293CB (FCC Facility ID 144520) to a different building in downtown Milwaukee, Wisconsin, 0.12 kilometers from that authorized in BPFT-20160729ACX.

**AM Fill-in Eligibility**

The proposed 60 dBu contour is contained completely within a 25 mile radius of WGLB, and within the WGLB licensed 2 mV/m daytime service contour as shown on attached Exhibit 13. The instant modification moves the transmitter site 120 meters northwest to a different building rooftop, lowers the center of radiation and changes the proposed antenna.

This engineering exhibit was prepared by me and is true and correct to the best of my knowledge and belief.
