RE: Online Public Inspection File
* KLBU(FM) Santa Fe, New Mexico
FACID 31801

Dear Madam Secretary:

This will notify the FCC concerning the status of the station KLBU(FM) online public inspection file.

During the above-captioned station's current license term, the radio station employment unit had greater than 5 full time employees. As outlined on the document attached to this statement, various station Equal Employment Opportunity Reports were uploaded to the Commission's electronic public inspection file website in June 2019.

The licensee regrets these instances and takes its obligations seriously. The licensee has reviewed the public inspection file requirements with its station staff and emphasized its importance to ensure compliance. The licensee has implemented steps, including additional employee training and supervision, to avoid recurrence.

Sincerely,

Scott Hutton, Member
Hutton Broadcasting, LLC

Equal Employment Opportunity Records:

The FCC audited the station EEO program in 2016 (auditing records associated with the employment unit's 2014 and 2015 EEO Public File Reports) and 2018 (auditing records associated with the employment unit's 2016 and 2017 EEO Public File Reports).

In each case, audit material was uploaded to the Online Public Inspection File ("OPIF") EEO Audits/Investigations folder on a timely basis in February 2018 in conjunction with the March 1, 2018, initial online PIF compliance deadline. These uploads include a copy of the 2014, 2015, 2016 and 2017 Annual EEO Public File Reports.

When uploading OPIF material in February 2018, station personnel was under the impression that if Annual EEO Public File Reports were uploaded to the EEO Audits/Investigations folder, it was not necessary to upload duplicate annual reports to the separate EEO Public File Report folder for these same years: 2014, 2015, 2016, and 2017.

Out of an abundance of caution the station has uploaded its EEO Public File Reports to the OPIF EEO Public File Report folder as well and will upload future reports to both folders on a timely basis.

The following Annual EEO Public File Reports were each prepared on a timely basis with a contemporaneous copy posted to, and available for public inspection at, the radio station website. The reports were posted to the OPIF EEO Public File Report folder as follows:

2014: Annual EEO Public File Report uploaded to OPIF in June 2019

2015: Annual EEO Public File Report uploaded to OPIF in June 2019

2016: Annual EEO Public File Report uploaded to OPIF in June 2019

2017: Annual EEO Public File Report uploaded to OPIF in June 2019

2018: Annual EEO Public File Report uploaded to OPIF on a timely basis

2019: Annual EEO Public File Report uploaded to OPIF in June 2019
