Exhibit 9

WTMQ FCC Form 301FM

Special Operating Conditions as per the underlying Construction Permit.
List of attachments in Exhibit 10.

Permit File Number; BMPED-20070718AEP

1. Figure 1 Antenna Proof-of-Performance.

Complete Vertical and Horizontal Pattern data of the antenna as it shall be installed at WTMQ with support structure appurtenances.

Antenna test site description
Test Equipment manifest.
Sketches or photographs of the test setup.
Description of test procedures.
Measurements frequency
Equipment calibration dates
2. Figure 2 Licensed Surveyor's Affidavit to establish the proper azimuth of the antenna. Affidavit is attached as Figure 2
3. Figure 3 Qualified Engineer's Affidavit. The installation of the directional antenna system was overseen by a qualified engineer. The affidavit is attached as Figure 3.
4. Figure 4 Relative Field Strength shall not exceed 1.0 which corresponds to 23 KW ERP at any azimuth.

Principal Minima: 2.3 KW ERP at 80 degrees true bearing.
5. Figure 5 The permittee/licensee has an agreement with other users of the site that WTMQ shall reduce power or cease operation as necessary to protect persons having access to the site, tower, or antenna from radio frequency exposure in excess of FCC guidelines.
