

AM Fill-in Translator

WSCO (AM) Appleton, Wisconsin, facility #72941, is a Class B AM station authorized to operate with a power of 1 kilowatt daytime non-directional and 0.331 kilowatts nighttime non-directional. Woodward Communications, Inc. ("WCI") is the licensee.

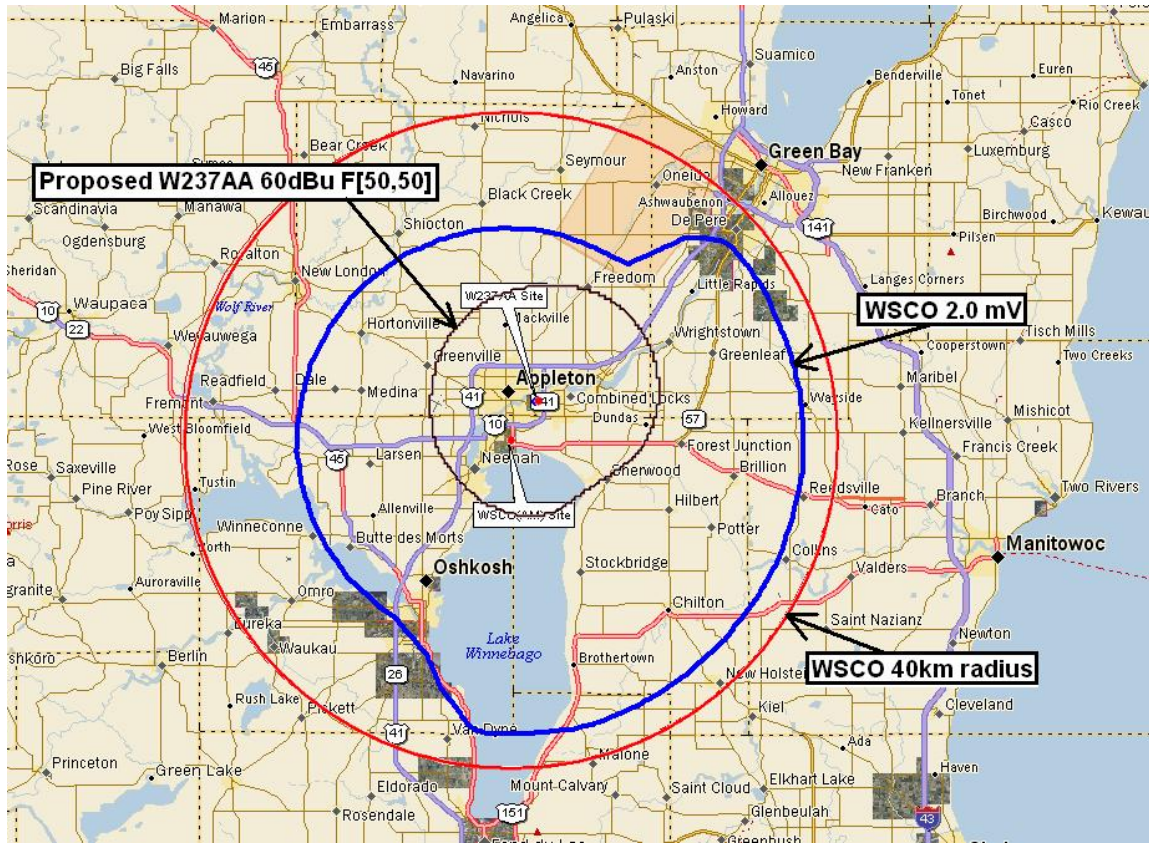

Figure 1

Figure 1 demonstrates the proposed FM translator 60 dBu contour will be completely contained within the 2 mv/m daytime contour (in blue) of AM station WSCO. A red circle marking a 40km radius in Figure 1 shows the translator's 60 dBu F[50,05] is completely contained within a 25 mile radius of WSCO.
