

To whom it may concern:

Neither the WBGG(AM) [formerly WWSW(AM)] daytime directional antenna array nor the WBGG(AM) nighttime directional array were adversely affected by the installation of the WORD-FM transmission system authorized in FCC Construction Permit BPH-19990928AAR. Accordingly, a measurement program on WBGG(AM) is not necessary in connection with the Licensing of WORD-FM.

Sincerely,

A handwritten signature in black ink, appearing to read 'Louis Galzerano', written in a cursive style.

Louis Galzerano – Director of Engineering Clear Channel Pittsburgh
