

THE FOLLOWING SECTION HAS BEEN AMMENDED IN THIS SUBMISSION:

SECTION 1 QUESTION 5 -

PROFILE CHARTS ATTACHED DEMONSTRATING TERRAIN SHIELDING

PLEASE NOTE THAT ALTHOUGH OPEN PATHWAYS ARE INDICATED IN MANY OF THE PROFILE CHARTS, THERE EXISTS A 400 FOOT MOUNTAIN SIDE VERY NEAR THE ANTENNA ARRAY WHICH BLOCKS SIGNALS TO ALL POTENTIAL AREAS OF INTERFERENCE. THIS SMALL AND SHARP GEOGRAPHIC FEATURE WAS NOT VISIBLE IN THE 3 SECOND DATA BASE FROM WHICH THE PROFILE CHARTS WERE GENERATED.

WE THEREFORE RESPECTFULLY REQUEST SINGLETON STATUS.
