

Exhibit 21

The Positive Radio Network

International Border Compliance

Freeport, Maine

WMSJ is within 320 km of the Canadian border. The station was properly evaluated as a Class B to cochannel Canadian allotments, and complies with the 1997 Amended distance separation requirements of §73.207(b)(2) concerning Canadian stations. The minimum distance separation is 210 km, and the actual distance separation is 263 km and 283 km from the Proposed site. Exhibit 21 Figure 1 shows the requisite distance separations to Canadian allotments.
