PLEASE NOTE: Nielsen Audio does not release audience estimates for stations that do not pay for ratings. So the only audience estimates available on this website are for stations that subscribe in each local market. Therefore, while ratings are accurate, rankings include only paid subscribers. Some non-subscribers may or may not be ranked higher than those posted on this site. To help you research each market, we've listed other stations in the market, without ratings, on the bottom of each market page.

Chicago Rank: 3
