P.O.

Tallahassee,

(850)

June 6, 2001

Mr. Andy Hanus, Chief Engineer
WFSQ
1600 Red Barber Plaza
Tallahassee, FL 32310

Dear Mr. Hanus:

We understand that you are planning to move WFSQ's transmit antenna to a new tower within about 300 feet of the current location, to change to a different type of antenna, or to make minor changes to the station power and HAAT.

The licensee of WFSQ has in the past agreed to correct any interference complaints to viewers of WCTV and we understand that this agreement will continue to be honored.

With respect to interference protection for WCTV, channel 6, we concur with the proposed changes to WFSQ.

Sincerely,

Robert Morgan
Chief Engineer
WCTV
