Subject: Alignment of WJCS FM Antenna

Hello Mr. Ginther:

This is a Certification that I, Nicholas D Remy performed a field Survey on August 20, 2009 at the WJCS transmitter site located at East Rock Road, Allentown, Pa. The survey was performed for Beacon Broadcasting Corporation, Station WJCS Allentown, Pa. We aligned the PSI Model PSIFV-6A-DA also known as WJCS FM Antenna . The orientation of the antenna is 14 degrees eastwardly from True North (Azimuth 014).

I, Nicholas D Remy, PLS, Pa 1422A certify that the WJCS antenna aligned on August 20 is in the proper alignment, as specified by the manufacturer.

Yours Sincerely,

Nicholas D Remy, PLS Pa 1422A
