Applicant certifies that:

The 60 dBu (1mV/m) service contour of the Proposed contains 15,253 persons and 7,731 of those have already been claimed as the 1<sup>st</sup> aural service provided. The 2<sup>nd</sup> Noncommercial Educational aural service will be provided to a total of **7,522** persons which is (a) 10 % of the people residing within the Proposed 60 dBu (1mV/m) service contour and (b) a minimum of 2,000 people.

Attached is a V-Soft Map using the following:

Terrain data: V-Soft 03 Sec USGS  
Population data: V-Soft Census 2000 centroids - 03 Sec USGS

Population centroid counts for the 2<sup>nd</sup> aural service:

Proposed 60 dBu (1mV/m) service contour	= 15,253
Minus the population in the 1 <sup>st</sup> Aural contour	= 7,731
<b>Total 2<sup>nd</sup> aural service provided</b>	<b>= 7,522</b>
