SURVEYOR'S DECLARATION

I, Charles D. Roberts, a Professional Land Surveyor in the State of Alabama, under penalty of perjury, do declare the following:

I have provided professional services to Anniston Seventh-Day Adventist Church, permittee of WRHP, Anniston, Alabama, during the installation of the equipment outlined in FCC Permit File Number: BMPED-20170419AIO. Specifically, a control point was set using GNSS RTK survey method and equipment on a True North Azimuth and at an arbitrary distance from the existing tower. The control point was occupied using a Nikon electronic total station and a direct line of sight to the antenna was established. Verbal commands were given to a technician who adjusted the antenna to and fixed the antenna in its final position while maintaining the direct line of sight. The final position of the antenna is within a tolerance of +/- one degree of True North.

Witness my hand this the 7th day of May, 2018.

Charles D. Roberts, P.L.S.
President
