

APPLICATION FOR STATION LICENSE
PEARSON BROADCASTING OF PARIS, INC.
KERX (FM) RADIO STATION
CH 237C2 - 95.3 MHZ - 50.0 KW
PARIS, ARKANSAS
April 2002

TECHNICAL STATEMENT

This Technical Statement was prepared on behalf of Pearson Broadcasting of Paris, Inc. ("Pearson"), licensee of radio station KERX, Channel 237C2, Paris, Arkansas. Pearson herein submits FCC Form 302-FM to license the outstanding KERX construction permit, BPH-19990813IE. KERX has commenced automatic program test with the facilities specified in its permit. Attached as Exhibit A is a calculation of the transmitter output power for KERX.

The KERX construction permit has only one condition. It relates to the reduction in power of the facility for those persons having access to the site with regard to radio frequency radiation levels at the site. Pearson herein restates that it will reduce the power of the KERX facilities to ensure that persons having access to the site will not be exposed to radio frequency radiation levels in excess of the rules. Therefore, Pearson has complied with the conditions on permit BPH-19990813IE.
