Re: Construction Permit: BNPED-20071022BHU
Special Condition/Restriction number 1

In reference to the first special condition pertaining to radio-frequency radiation protection to person and workers at the site, Inter Mirifica Inc. certifies that it will coordinate with all current and future users of the site to ensure that the workers or personnel having access to the tower are not exposed to levels of radio-frequency radiation in excess of applicable safety standards. Such coordination may include, but is not necessarily limited to, a reduction in power and/or cessation of operation.

A handwritten signature in black ink, appearing to read 'James J. Ganley', with a large, stylized flourish at the end.

James J. Ganley
