**STYLES MEDIA GROUP, LLC**  
**WJRL-FM RADIO STATION**  
**CH 280C3 - 103.9 MHZ - 25.0 KW**  
**FORT RUCKER, ALABAMA**  
**February 2005**

**TECHNICAL STATEMENT**

This Technical Statement and attached exhibits were prepared on behalf of Styles Media Group, LLC (“Styles”), license of FM radio station WJRL-FM, Channel 280C3, Ozark, Alabama. In MB Docket #04-146, WJRL-FM’s community of license was changed from Ozark, Alabama to Fort Rucker, Alabama.<sup>1</sup> This instant application seeks to implement the change in community of license. Styles proposes to implement this change at the existing WJRL-FM site (no actual technical changes are proposed).

Since Styles proposes for WJRL-FM to remain at its licensed site, on an existing tower, the Federal Aviation Administration was not notified of this proposal. The tower has been registered with the Commission and assigned Antenna Structure Registration Number 1037907. At the proposed site, Channel 280C3 does not meet the Commission’s minimum distance separation requirements to one other station. Therefore, processing pursuant to §73.215 of the rules is requested (see Exhibit A).

Based on the power of the WJRL-FM facility, and its co-location with another FM station on a relatively short tower, the use of the worksheets associated with FCC Form 301 to certify

1) See Exhibit C for the Report and Order.

compliance with the radio frequency radiation limits was not possible. Therefore, attached as Exhibit B is a radio frequency radiation statement which shows this proposal is in compliance with the Commission's RF exposure limits. All other data used to certify the information contained in the application has been forwarded to Styles and is available for submission to the Commission upon request.
