

**W23BZ Channel 23
Columbus, OH
RF Exposure Statement
August 12, 2010**

The facility proposed in this application is for a modification of the existing DTV construction permit. The modification is to change the antenna pattern to utilize the current analog pattern. All other parameters contained in the current construction permit remain unchanged. A RF exposure study indicates that the levels on the ground in the vicinity of the tower will be below the acceptable limits. In addition, all other current safeguards related to the site with regard to both workers and the general public will remain in place.
