**Subject:** BLED-20090205ABP - WNYE (FM) - New York, NY - Program Test Authority

This e-mail is in response to license application BLED-20090205ABP and the related request for program test authority for WNYE (FM). You include exhibits to show that the RF and spurious emissions conditions on construction permit BPED-20080801ASL are satisfied. I have reviewed the exhibits and agree with your conclusions.

Consequently, by this e-mail, program test authority IS GRANTED to permit WNYE (FM) to operate at an effective radiated power of 2.00 kW ERP (circularly polarized) with the facilities authorized in construction permit BPED-20080801ASL. Please include a copy of this e-mail with the license application to cover this construction permit to document that the construction permit condition has been satisfied.

This authorization is being sent by e-mail in lieu of a letter for the same purpose in order to get this authority to you as soon as possible. Please print a copy of it and keep it with the station's records. The grant of this program test authority will also be noted in the FCC's CDBS database.

If there are any questions, please contact me at 202-418-2706.
