Dear Mr. Stonebraker:

This is in reference to the request filed on July 18, 2018. Calvary requests an extension of the STA granted on July 10, 2017, to continue ND operation along with co-located station KHKA(AM) due to the related FCC Form 301 applications.<sup>1</sup> In support of the request, we note that both applications remain pending at this time.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of the STA IS HEREBY GRANTED, and BUL may continue to operate with the following facilities:

Geographic coordinates

21° 20' 09" N, 157° 53' 33" W (NAD 1927)

---

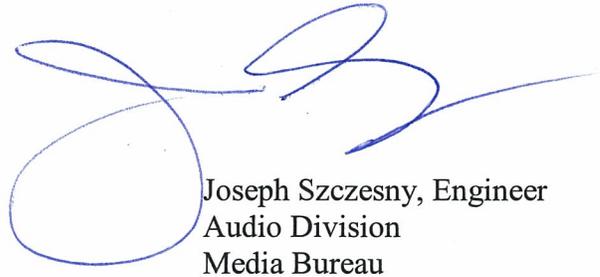

<sup>1</sup> KLHT(AM) is licensed for ND operation on 1040 kHz with 10 kW (day and night), and BP-20180508ABJ proposes ND operation from a new transmitter site.

Operating power	10 kW
Antenna type	150 foot self-supporting tower
ASRN	1302728

Calvary must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310.

This authority expires on **January 18, 2019**.
