

AUCTION AUTHORIZATION

The original construction permit for Station KRWB-TV was granted on April 25, 2000, which means that the assignment of the KRWB-TV construction permit will occur in year four of the "license term." *See* 47 C.F.R. §1.2111(d). The proposed assignee, ACME Television Licenses of New Mexico, L.L.C., does not meet the eligibility criteria for a bidding credit. Thus, as a condition of Commission approval of the assignment, the permittee is required to reimburse the U.S. Government for 50% of the bidding credit plus interest pursuant to Section 1.2111(d) of the Commission's rules.
