Portland, OR 97232

Re: KQAC Gleneden Beach, OR

Dear Ms. Shelley:

Having reviewed the information you supplied it appears that any potential interference to KOIN-TV or to its translators, from the proposed operation of KQAC(FM) by the KBPS Public Radio Foundation to be located at Otter Crest Ridge, Oregon, operating on channel 200 (88.1 MHz) with 8.75 kW ERP, should be minimal. However, since a possibility does exist KOIN will ask that you agree to comply with the following conditions:

- 1) KBPS Public Radio Foundation agrees to remedy interference to channel 6 users by providing a suitable notch filter, such as that provided by Microwave Filter Company or the equivalent, to remove the interfering signal.
- 2) KBPS Public Radio Foundation agrees to remedy interference to KOIN's translator K52ET at Mt. Hebo, Oregon. Subject to KOIN's approval, such remedy may include replacement of translator antennas or equipment, if necessary.
- 3) KOIN may direct, at any time it chooses, interference complaints it receives from viewers to the following designated contact person:

Larry Heltz, Chief Engineer
KBPS Public Radio Foundation
515 NE 15th Ave.
Portland, OR 97232

Office: 503-802-9407
Cell: 503-351-6414
Fax: 503-802-9467
Email: larry@allclassical.org
- 4) KBPS Public Radio Foundation will provide KOIN with copies of any reception complaints it receives along with a description of the corrective action taken.
- 5) This agreement applies only to the particular application with which it is first submitted and any future changes in the operating parameters of the station will require a new letter of agreement between KOIN-TV and the KBPS Public Radio Foundation.

KOIN has a long and successful history of cooperation with users of the non-commercial FM community and looks forward to a similar level of cooperation with KBPS Public Radio Foundation. Please return a signed copy of this letter as your understanding and acceptance of these conditions.

Sincerely,

Lee A. Wood, Director of Engineering
