Re: Notification of Operation at Variance: KBUY-AM (FCC ID. 70826)

Dear Ms. Dortch:

Please be advised that KBUY-AM (FCC ID 70826) will operate at reduced power of 1KW for a period not to exceed 30 days, effective 13 March 2021. This is necessitated by damage from power surges received in the last 10 days resulting in extensive damage to solid state transmitter power amplifier modules and spares, making it technically impossible to operate at authorized power. Parts acquisition is in progress and will conduct repairs as soon as practicable. Should this operation at variance continue beyond thirty days, the licensee will submit a request for Special Temporary Authorization.

Sincerely,  
  
Cy Leland  
Contract Engineer
