Re: **Request to Temporarily Withhold Action on FCC Form 301**
R & B Communications, Inc.
Station WWTM(AM), Decatur, Alabama
Facility Identifier Number 54328
File Number BP-20170711AAQ

Dear Son:

R & B Communications, Inc. ("R&B"), the licensee of Station WWTM(AM), requests that action on the above referenced application be withheld for a period of 90-120 days. The licensee has filed for an FAA determination to increase height of the tower. The structure is not registered due to its current height. The FAA process and subsequent registration will also require an environmental study. Therefore, a delay in processing this application is requested. R&B will submit an amendment as soon as the registration process has been completed.

Sincerely,

A handwritten signature in blue ink that reads "Joe Burns".

Joe Burns
