

TECHNICAL STATEMENT  
KRAE(AM) CHEYENNE, WY  
FCC FORM 301  
KONA COAST RADIO, LLC  
NOVEMBER 2012

This minor change application is for KRAE(AM) Cheyenne, WY, facility ID 35510.

KRAE seeks to lower its daytime power from 1.0 KW to 0.5 KW, non-directional. No other changes are being proposed. It will continue to operate at its present tower site, with no changes to the already licensed antenna system. No changes are being proposed to the current 0.072 KW night time operation.

Attached is a present and proposed daytime coverage map which shows that KRAE will continue to place the required 5.0 mV/m city grade over the entire city of Cheyenne.

Since this application is only to specify a lower daytime power, no interference studies, or antenna designs or layouts are required.
