Re: KWGS(FM), Tulsa, Oklahoma, Facility ID No. 66586  
Modification of Special Temporary Authority

Dear Ms. Dortch:

This letter is prepared on behalf of The University of Tulsa, licensee of stations KWGS(FM), Tulsa, Oklahoma operating on Channel 208C1 with 50 kW at an HAAT of 325 meters and KWTU(FM), Tulsa, Oklahoma, Channel 204C2 with 5 kW at an HAAT of 325 meters.

Stations KWGS(FM) and KWTU(FM) operate from a common antenna. This antenna received damage due to severe weather and is in the process of installing a replacement antenna. Due to unforeseen problems, the installation of the new antenna has been delayed. This supplements the August 30, 2010 letter to the FCC that initially notified of the temporary operation. A coverage map depicts the operation in relation to the licensed facility.
