

ASSIGNEE'S EXHIBIT 10
DESCRIPTION OF THE TRANSACTION, CHANGES IN INTERESTS,
ACQUISITION OF CONTROL, AND MEDIA INTERESTS

This application is one of a series of concurrently filed applications seeking FCC consent to the *pro forma* assignment of the licenses held by wholly-owned subsidiaries of Citadel Broadcasting Corporation (“Citadel”), as identified in the table below. On December 20, 2009, Citadel, along with its subsidiaries, submitted voluntary petitions for bankruptcy to the United States Bankruptcy Court for the Southern District of New York seeking to reorganize under Chapter 11 of the U.S. Bankruptcy Code.¹ Citadel and each of the licensee subsidiaries listed below are now operating as debtors-in-possession under the Bankruptcy Court’s oversight, and it is anticipated that each will continue operations in the ordinary course throughout the Chapter 11 process. Copies of the Petitions for Bankruptcy for the relevant licensee subsidiary and for Citadel are attached as Exhibit 5.

This assignment does not effect a substantial change in the control of the licensees, as the officers and directors of Citadel and each subsidiary remain unchanged following the filing of the bankruptcy petitions. The control structure of Citadel and each subsidiary remains unchanged but is now subject to the jurisdiction and oversight of the bankruptcy court overseeing this voluntary reorganization. In short, the attributable ownership interests in Citadel are substantively unchanged from those last approved by the Commission in *Citadel Broadcasting Co. and The Walt Disney Co. (Transfer of Control)*, Memorandum Opinion and Order and Notice of Apparent Liability, 22 FCC Rcd 7083 (2007). Accordingly, the contemplated assignment is *pro forma* in nature. Under the Commission’s policies, the assignment of authorizations to Debtors-in-Possession constitutes a *pro forma* transaction for which the use of FCC Form 316 is appropriate. See *1998 Biennial Regulatory Review – Streamlining of Mass Media Applications, Rules and Procedures*, 13 FCC Rcd 11349, 11376 & n. 99 (1998) (citing *O.D.T. International*, 9 FCC Rcd 2575 (1994)).
