

Form 316 Transfer of Control Application
Exhibit 11 – Agreements
Section III, Question 4

Northwestern University
December 2012

There is no written agreement regarding the instant *pro forma* voluntary transfer of control application for Northwestern University, the applicant herein and the licensee of WNUR-FM, Evanston, Illinois, a noncommercial educational station, Facility ID 48779. Rather, this application seeks the Commission's approval, *nunc pro tunc*, following periodic changes in membership of Northwestern University's Board of Trustees and officers over the years through the election of new trustees and the appointment of new officers. At no time was there ever a 50 percent or greater transfer of control.

WNUR-FM was licensed in 1950. Pursuant to the advice of previous communications counsel, and after consultation by counsel with Commission staff, Northwestern University has never filed a transfer of control application.

However, Northwestern University has employed new communications counsel who recently consulted with the Audio Division staff regarding the university's changes in membership of its Board of Trustees and university officers since 1950. The Audio Division informally advised Northwestern University to file a Form 316 application and include year-to-year data demonstrating the changes in the membership of the university's Board of Trustees and officers, beginning with 2001. Such data is provided in the exhibits attached to the instant application.

All elections of new board members and appointments of new university officers since 1950 have been memorialized in the Board of Trustees' minutes, which are taken during each June board meeting, and become effective the following September.
