

## REQUEST FOR EXTENSION OF SPECIAL TEMPORARY AUTHORITY

York Professional Baseball Club, LLC, license of Radio Station WOYK(AM), FI 73873, York, PA, respectfully requests the extension of STA BSTA-20160316ABI, most recently extended by BESTA-20211228AAC, which inadvertently expired on June 28, 2022.

The licensee has erected the new tower and John Hess and Morgan Burrows are making adjustments to the array.

The new tower is a triangular cross section instead of the 80 plus year old tubular tower that fell. With the change of tower geometry, adjustments are required to restore the authorized pattern. The new tower is also detuned for non directional operation daytime. Replacement of a component is necessary to complete this adjustment.

The ATU building was damaged when the old tower fell on it. Messrs. Hess and Morgan are making the repairs and seeing that the door locks work. Ready access to all the ATU buildings is required for impedance and antenna current measurements.

The licensee respectfully requests additional time to complete repairs and make the measurements for the 302 direct power application.
