

**MINOR CHANGE APPLICATION**  
**JACKSON COUNTY BROADCASTING, INC.**  
**WCJO (FM) RADIO STATION**  
**CH 249A - 97.7 MHZ - 1.9 KW**  
**JACKSON, OHIO**  
**June 2007**

**TECHNICAL STATEMENT**

This Technical Statement and attached exhibits were prepared on behalf of Jackson County Broadcasting, Inc. ("JCB"), licensee of WCJO, Channel 249A, Jackson, Ohio. JCB herein proposes to make minor changes to the facilities of WCJO by increasing the height of the center of radiation and decreasing the effective radiated power at the WCJO licensed site.

Since JCB is proposing to install the WCJO antenna on an existing tower, the Federal Aviation Administration has not been apprised of this proposal. The tower has been registered with the Commission and assigned Antenna Structure Registration Number 1045391.

At the proposed/existing site, Channel 249A does not meet the Commission's minimum distance separation requirements to four other FM facilities. See Exhibit A for details. All other necessary documentation used to certify the technical portion of FCC Form 301 has been forwarded to JCB and is available to the Commission upon request.<sup>1</sup>

---

1) For the purposes of environmental analysis, only the radio frequency radiation evaluation was undertaken by Graham Brock, Inc. The applicant has, or will if necessary, conduct the balance of the environmental reviews (i.e., location of site near areas of historic importance, Indian or tribal areas, etc.).
