ENGINEERING STATEMENT OF RICHARD C. POGSON, CSRE

Prepared for: Pembroke Pines Mass Media N.A. Corp.  
Regarding: Commission File No. BNPH-20060310ABV

The Applicant, Pembroke Pines Mass Media N.A. Corp. proposes amendment of the existing Application for Construction Permit File Number BNPH-20060310ABV. The proposed modification involves a change in antenna coordinates from the existing North Latitude: 42 degrees, 3 minutes, 45 seconds /West Longitude: 77 degrees, 53 minutes, 40 seconds. The proposed coordinates are North Latitude: 42 degrees, 11 minutes, 25 seconds /West Longitude: 77 degrees, 49 minutes, 17 seconds on an existing tower structure. The Applicant proposes operation at an ERP of 1.1 Kilowatts with the antenna center of radiation at an elevation of 234 meters above average terrain.

At the time of the initial filing locating the antenna to the above-proposed coordinates would have resulted in a short spacing to an existing construction permit issued to WDNV-FM (File No. BPH-20020115ACF). However, at this time based on the Commission's database the construction permit issued to WDNV-FM has expired as of April 14, 2006. Commission records do not indicate that an application for license has been tendered as of the date of this statement. Therefore, due to the expiration of the above referenced WDNV-FM construction permit this proposal meets the separation requirements of 47 C.F.R. Section 73.207.

Respectfully Submitted By,  
Richard C. Pogson CSRE
