

**STATEMENT OF JOHN E. HIDLE, P.E.
IN SUPPORT OF AN
APPLICATION FOR LICENSE
TO COVER CONSTRUCTION PERMIT
BPCDT-19991029AFM
WBNX-DT - AKRON, OHIO
DTV - CH. 30 - 1000.0 kW - 331.0 m HAAT**

Prepared for: Winston Broadcasting Network, Inc.

I am a Consulting Engineer, an employee in the firm of Carl T. Jones Corporation, with offices located in Springfield, Virginia. My education and experience are a matter of record with the Federal Communications Commission. I am a registered Professional Engineer in the Commonwealth of Virginia, Registration No. 7418, and in the State of New York, Registration No. 63418.

GENERAL

This office has been authorized by Winston Broadcasting Network, Inc., licensee of WBNX-TV, channel 55, Akron, Ohio, and permittee of paired DTV allotment WBNX-DT, channel 30, to prepare this statement, FCC Form 302-DTV, Section III, and attached Exhibit 1, in support of an application for license to cover construction permit, BPCDT-19991029AFM.

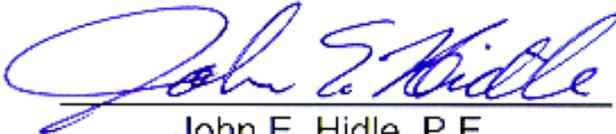

The permittee has constructed WBNX-DT in accordance with all of the terms and conditions in its construction permit, except one. In order to avoid a serious mechanical problem, it was necessary to install the authorized antenna three meters below its authorized height on the tower. Exhibit 1 shows the antenna height values according to actual installation. The height of the antenna's radiation center is three meters lower than

those values for height above ground, height above mean sea level and height above average terrain, as contained in the construction permit. According to Section 73.1690(c) the permittee requests that the license be issued to reflect these necessary changes.

SUMMARY

It is submitted that the instant application for license-to-cover construction permit BPCDT-19991027AFM, as described herein complies with the Rules, Regulations and relevant Policies of the Federal Communications Commission. This statement, FCC Form 302-DTV, Section III, and the attached exhibit were prepared by me or under my direct supervision and are believed to be true and correct to the best of my knowledge and belief.
