

RADIO MARKET ANALYSIS
URBAN RADIO LICENSES, LLC
WJZE RADIO STATION
OAK HARBOR, OHIO
November 2006

TECHNICAL STATEMENT

1. This technical statement and attached exhibits were prepared on behalf of Urban Radio Licenses, LLC (“Urban”), licensee of WJZE, Channel 247A, Oak Harbor, Ohio. Urban is proposing to modify an outstanding permit for WJZE and, as such, is submitting an updated ownership study. WJZE is licensed to a community that is not located in a metro county in the Toledo, Ohio Arbitron Market (Market #84).¹ The station is however designated as “home” to the Toledo market. Urban is also the license of station WIMX, Channel 239A, Gibsonburg, Ohio. WIMX is also not licensed to a metro county in the Toledo Arbitron Market, but is considered “home” to the market. In order to demonstrate compliance with the Commission’s ownership rules, we will review the combination of WJZE and WIMX under both the BIA/Arbitron market rules and the revised city grade contour overlap rules. A map showing the city grade contours of the two stations is attached as Exhibit #1.

2. A study has, therefore, been conducted to verify the proposed modification of WJZE is in compliance with the Commission’s multiple ownership rules. The city grade contours of the subject stations will be used to determine the number of other commercial AM or FM stations that either have transmitter sites within, or provide coverage to, the subject stations’

1) Based on the Spring 2005 Arbitron data.

contours, which will hereinafter be described as the “Radio Market”. No other URL stations will be considered market contributors, unless they are subject stations in the market under review. Further, no transmitters located more than 92.0 kilometers from the boundary of the common overlap of subject stations will be considered.

3. Exhibit #2 is a depiction of the AM and FM stations (commercial and non-commercial) providing service to the subject radio market. Exhibit #3 is a tabulation of the stations in the Radio Market, which shows six stations, including the two subject stations.² The number of stations depicted falls in the fourteen or fewer stations tier of §73.3555(a)(1)(iv) of the Commission's rules. At this level, common ownership or control of up to five stations, with no more than three in the same service, is permissible. Based on Urban’s interests in the two above referenced stations, it has been herein demonstrated that the proposed relocation of WJZE is in compliance with §73.3555 of the Commission’s rules, under the revised contour overlap rules.

4. Since these two stations are considered “home” in the Toledo, Ohio Arbitron Market, an analysis based on the stations in a rated market has also been undertaken. As shown on Exhibit #4, there are thirty-one AM and FM (commercial and non-commercial) stations listed in the Toledo, Ohio Arbitron Market. Urban would be in control of two FM stations in the market. The number of stations indicated falls in the thirty to forty-four stations tier of §73.3555(a)(1)(ii)

2) There are additional stations providing service to the market, but they were not considered since the number of stations shown was sufficient to demonstrate compliance with the rules.

of the Commission's rules. At this level, common ownership or control of up to seven stations, with no more than four in the same service, is permissible. Therefore, since Urban will control only two stations in this BIA/Arbitron market, the relocation of WJZE is in compliance with the rules. That is, Urban has permissible attributable interests in two radio stations (two in FM service) in the relevant market.

5. The foregoing technical statement was prepared on behalf of Urban Radio Licenses, LLC, by Graham Brock, Inc., its Technical Consultants. All information contained herein is true and accurate to the best of our belief and knowledge. All data relating to AM and FM facilities was extracted from the CDBS database. All market data relating to AM and FM facilities in Arbitron markets was extracted from the BIA Financial Network, Media Access Pro 4.0 computer software. We assume no liability for errors or omissions in that database or program which may be adverse to the information contained herein.
