Re: NEW-LP, Omaha, NE
Facility ID No. 193882
Gospel Music Omaha
File No. BNPL-20131104ABL

Dear Applicant:

The staff has under consideration the above-captioned application for a new low power FM (LPFM) station.

An engineering study has revealed that the proposed transmitter site specified in the application fails to meet the minimum spacing requirements of 47 C.F.R. § 73.807. Specifically, the site proposed is short-spaced to the second adjacent facility for KOOO(FM) (BLH-20120203ABL), La Vista, NE. The application recognizes the short-spacing and requests a second-adjacent waiver. However, the exhibits in the waiver request reference WSRV(FM) in Gainesville, GA and not KOOO. Therefore, the application is unacceptable for filing and will be dismissed. Please note that an adequate demonstration of no interference should contain items such as a map of the proposed interference area, a tower diagram, a satellite or aerial photograph, the antenna manufacture's vertical radiation pattern, and/or any details about any nearby structures or major roadways.

Accordingly, in light of the above, application BNPL-20131104ABL is unacceptable for filing pursuant to 47 C.F.R. § 73.3566(a)¹ and IS HEREBY DISMISSED. This action is taken pursuant to 47 C.F.R. § 0.283

Sincerely,

James D. Bradshaw
Deputy Chief
Audio Division
Media Bureau

¹ Under the Public Notice entitled "Commission States Future Policy on Incomplete and Patently Defective AM and FM Construction Permit Applications," FCC 84-366, released August 2, 1984, the Commission indicated that it would reinstate applications *nunc pro tunc* where the original application was dismissed and where a minor curative amendment was filed within thirty days. Please note that any amendment submitted for this purpose must be received within 30 days of the Public Notice of the dismissal of the application and must correct ALL acceptance defects with the application. This includes any defects that may not have been identified in the dismissal letter.
