In re: W278BV, Macon, GA  
BMPFT-20141028AAB  
Facility ID # 141571

Dear Applicant:

This refers to: (1) the above-captioned application for W278BV, Macon, Georgia.

An engineering study of the application reveals that it is in violation of Section 74.1235(b)(1). The application proposes an effective radiated power ("ERP") of 250 watts. Section 74.1235(b)(1) states that the maximum allowable effective radiated power with an antenna height above average terrain (HAAT) between 48 meters and 57 meters is 80 watts. Our study reveals that the azimuth at 150° has a HAAT of 56.9 meters. The application failed to discuss this violation. Therefore, we will dismiss the application.

In light of the above, the application BMPFT-20141028AAB filed by Clyde Scott, Jr. is unacceptable for filing pursuant to 47 C.F.R. § 73.3566(a) and IS HEREBY DISMISSED. This action is taken pursuant to 47 C.F.R. § 0.283.

Sincerely,

James D. Bradshaw  
Deputy Chief  
Audio Division  
Media Bureau
