**ENGINEERING REPORT**

---

**Willow Creek, CA, FM Minor Modification for New Station**

**EXHIBIT 23 AMENDED**

**ENGINEERING STATEMENT REGARDING SECTION 73.203**

Figure 1 (Amended), attached, is a map showing the amended reference site (also referred to as the “allotment site”) at N 40° 52’ 53”; W 123° 40’ 38” (NAD 27) that meets all separation requirements of 47 CFR Section 73.207 with the exception of KJNY, Ferndale, CA, 256C1, which is being “show caused” in a contingent application to channel 249C1 (See Exhibit 26). Also shown on Figure 1 is a predicted 70 dBu service contour (determined as a circular service with a 23 kilometer radius distance for the Class C3 proposal) from the amended reference site.

As demonstrated by Figure 1, the reference site places a 70 dBu Service Contour over 100% of the Willow Creek Community. Therefore, this proposal is in compliance with 47 CFR Section 73.203.
