

**DECLARATION OF RONALD V. NUTT**

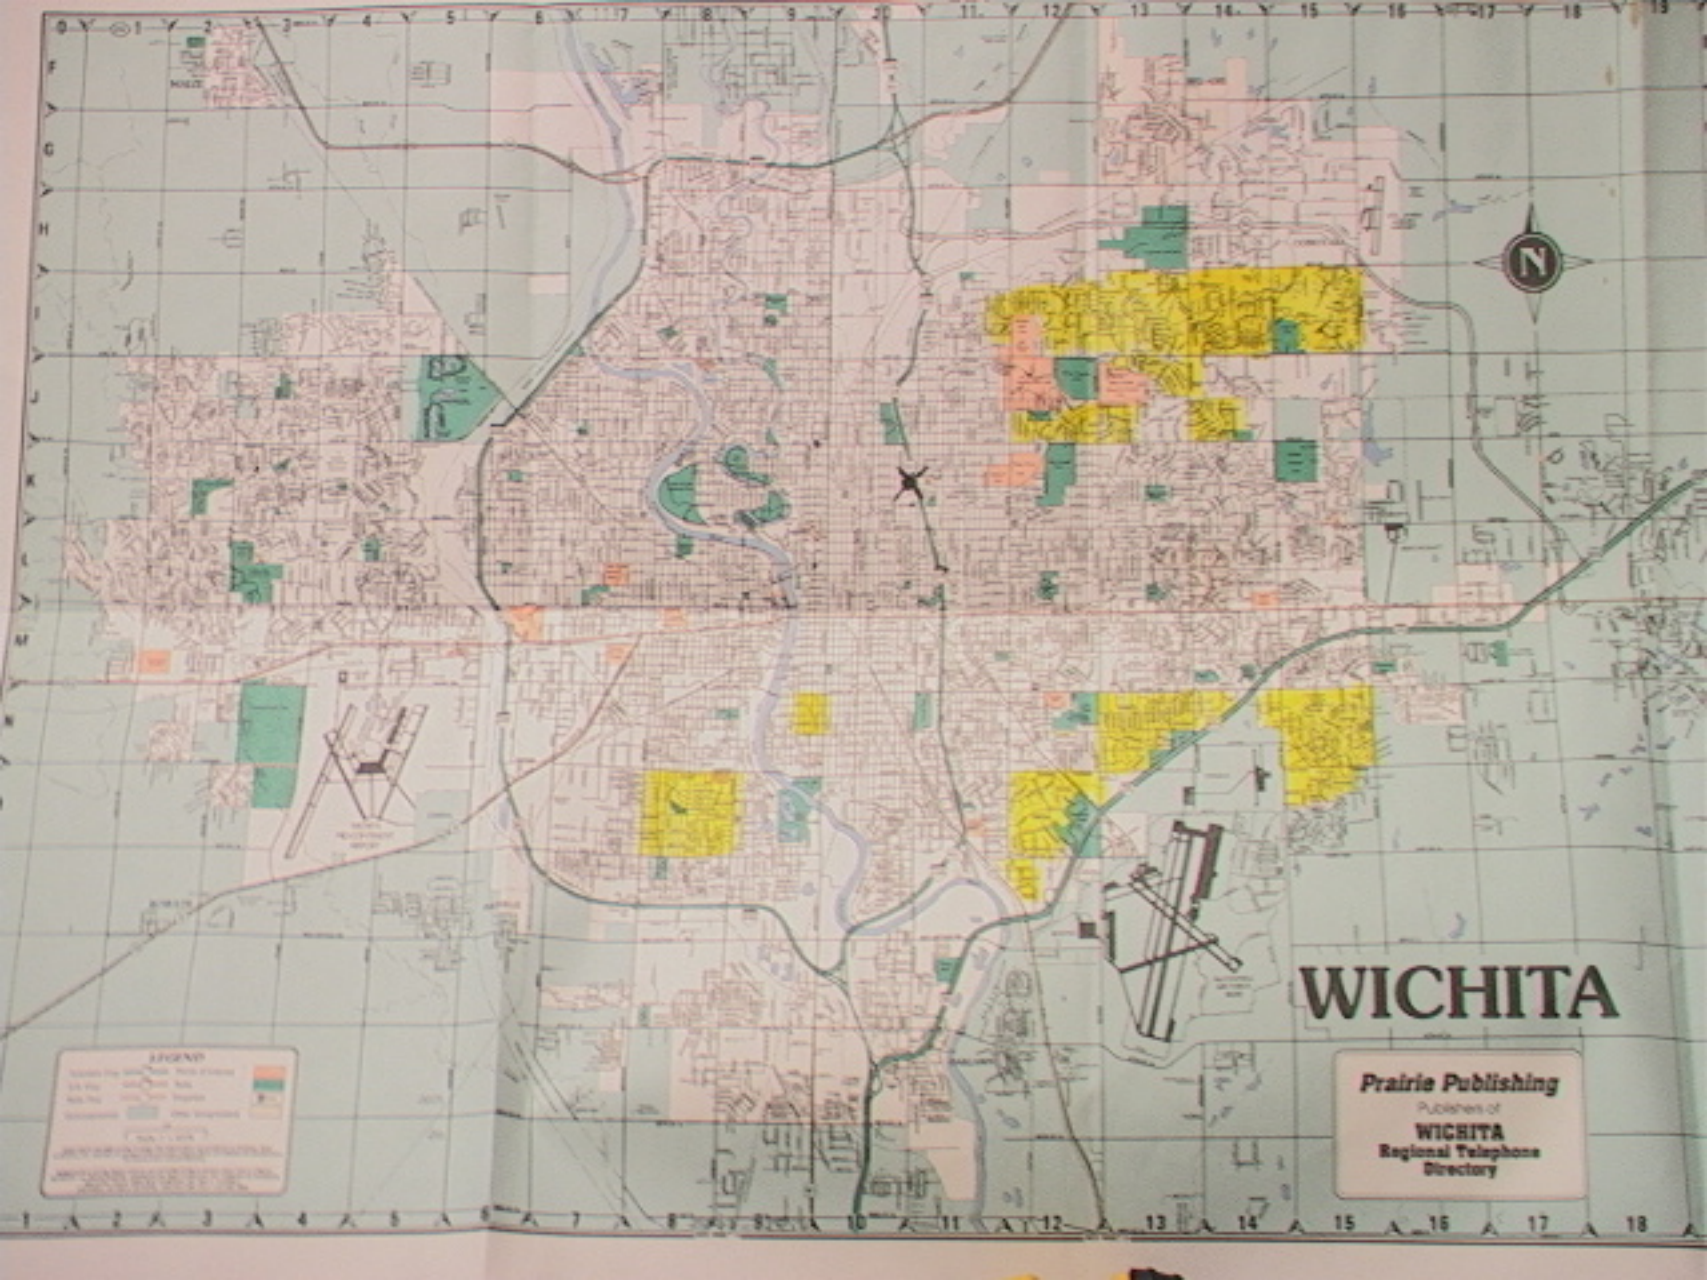

Ronald V. Nutt hereby declares as follows:

1. I am President of River City Broadcasters, Inc., licensee of Station KCTU-LP, Channel 5, Wichita, Kansas.
2. River City Broadcasters, Inc. is applying for displacement relief because of serious actual interference to reception of the KCTU-LP signal on Channel 5.
3. Attached hereto is a series of images and photographs.
  - a. The first page is a map showing in yellow the areas where interference is being experienced.
  - b. The second page is a map of the KCTU-LP protected 62 dBu contour, generated with the TV Query function on the FCC's website. This map shows that the interference areas are well within the 62 dBu contour. The largest interference areas shown in yellow on the first page are between Bel Aire and Eastborough shown on the 62 dBu map.
  - c. The largest interference area is located approximately 4 to 5 miles from the KCTU-LP transmitter site.
  - d. Outside the interference area, the picture of KCTU-LP is clear and is comparable to the picture from full power television stations in the market.
  - e. The third through final images are photographs taken of television screens on December 19, 2008, between 4:00 p.m. and 7:00 p.m. Central Standard Time. Some of the receivers were operated with rabbit ear antennas. Some were operated with outdoor antennas.
  - f. The final image shows interference appearing on the receiver screen during a short time when the program signal of KCTU-LP went to black.

I declare under penalty of perjury that the foregoing is true and correct.

Executed on December 22, 2008.
