

Amendment to Exhibit 15

Attached hereto is a map showing the city grade contours of station KFGE-FM, and the other stations in which NRG License Sub, LLC ("NRG") has, or will have after consummation of the assignment contemplated by this application, an attributable interest and whose city grade contours overlap with that of KFGE-FM. Such stations are KFGE-FM, KBBK-FM, KLNC-FM, KLTQ-FM, KLIN-AM, KOIL-AM, and KYDZ-AM.

These contours create a "market" consisting of the FM stations and three AM stations listed above. Under Section 73.3555(a)(1)(ii) of the Commission's Rules, a party may have attributable interests in up to seven commercial radio stations, up to four of which are in the same service, provided there are a total of at least 30 full power radio stations in the market. The attached map and list of radio stations in Table 1, the city grade contours of which overlap with one or more of the NRG stations comprising the relevant market, demonstrate that there are more than 30 stations in the market. NRG's ownership of these stations therefore complies with the Commission's multiple ownership rules.
