% = Station fails 73.215.

RSV-R = reserved - needs protection, RSV-A = allocation.

All separation margins include rounding

This application clears all allocation constraints under Section 73.207 with special attention given to the pending WHJT Application at Kearney Park. The WHJT application has chosen to protect the Summit, MS allocation reference using Section 73.215. This TeleSouth application is filed at the Summit, MS allocation coordinates and uses the same tower with the same ASR as the original Summit proponent. Therefore, this Summit application is compliant with Section 73.207 spacing regulation.
