In re: Low Power Television Application of:
Prism Broadcasting Network, Inc.
Channel 26, Atlanta, GA.
File numbers BPTTL-20091130AOW
BDISDTL_20091015AAN &
BDISTTL-20091127ABG
Facility Id No.:53584

Dear Applicant:

On December 7, 2009, the licensee as addressed above was sent the following 30 day letter:

Our preliminary engineering review reveals that the above application was filed as a minor change to a license facility; however, you currently have a minor change application active that was granted April 11, 2007 and has an expiration date of August 27, 2010 file number BPTTL-20070411ACJ. You can not have two minor change applications granted and active at the same time.

In addition the same rule applies for displacement applications; you can not have two pending at the same time. You currently have pending BDISTTL-20091127ABG and BDISDTL-20091015AAN.

You were given the opportunity to file a minor amendment to change the minor change applications to a minor modification of the currently active minor change application or request that the currently active minor change application be cancelled which would allow processing of the above referenced application as a minor change within (30) days from the date of this letter. Amendments must be filed electronically. If not so amended or a letter received requesting cancellation of the currently active minor change application, your application will be considered invalid and subsequently dismissed.

In addition during the same 30 day period of this letter, you were given the opportunity to request that one of the above displacement applications be dismissed; if not so requested the latest displacement application BDISTTL-20091127ABG will be considered as super ceding the later one and displacement application BDISDTL-20091015AAN will be subsequently dismissed.

Our records indicate that no response has been received to the above referenced issues; therefore the applications as referenced above BPTTL-20091130AOW and BDISDTL-20091015AAN ARE HEREBY DISMISSED.

Sincerely

Hossein Hashemzadeh
Associate Chief
