**TECHNICAL STATEMENT**

This Technical Statement was prepared on behalf of Oklahoma Community Television, LLC ("OCT"), permittee of digital low power/companion television translator K22IC-D, Channel 22, Strong City, Oklahoma. OCT holds an outstanding permit for K22IC-D (BMPD TT-20091221ADI), authorizing a reduction in power and a change in the antenna system to be used. This instant application seeks a license to cover the outstanding permit for K22IC-D. Attached as Exhibit A is a calculation of the transmitter output power for the K22IC-D transmitter.

There are no special operating conditions or restrictions on the K22IC-D construction permit. However, OCT will, in cooperation with other tower users, reduce the power of K22IC-D or cease operation, as necessary, to insure that persons having access to the tower will not be exposed to radio frequency electromagnetic fields in excess of the FCC's guidelines. Based on the foregoing, it is believed K22IC-D is operating pursuant to the Commission's rules.
