Date: Monday, July 14, 2014 1:08:40 PM

Ms. Joan Stewart, Esq., Wiley, Rein, LLP – Contact Representative for WAZT-LD – Licensee: WMTM, LLC – Digital Facility ID number 197832 and Associated Analog Facility – WAZT-CA – Analog Facility ID number 57905

This e-mail is in reference to a digital minor modification BMPDTL-20140710ABL proposing to modify the digital companion channel construction permit BDCCDTL-20131227ADV for WAZT-LD.

The public notice DA 13-618 Released April 5, 2013, under number 1 paragraph 2 the exception to the limitations described therein only pertains to the minor change application which will allow a Class A station to implement their digital transition and does not apply to subsequent modification proposals to the existing companion channel construction permit; therefore since the contour of the proposed digital modification exceeds the contour of the existing digital companion channel construction permit and the existing license is an analog Class A license the digital modification proposal BMPDTL-20140710ABL is in violation of the above referenced public notice and is not grantable at this time.

Thanks, Ron Graser
